

The Legislature appropriated \$10,000 for a Nevada exhibit at the World's Fair in Chicago. The Governor appointed James A. Yerington of Hawthorne State Commissioner to carry out the purposes for which the appropriation was made. Commissioner Yerington will act in conjunction with the World's Fair Commissioners from Nevada appointed by the President and endeavor to make as creditable an exhibit of the agricultural, mineral and other products of Nevada as the limited amount of money at his disposal will admit. He is an intelligent and energetic young man of more than ordinary executive ability, and has a high appreciation of the honor conferred upon him. He will devote his whole time to the collecting and forwarding of the exhibit and will have it on the way to Chicago within thirty days. He has applied for space in the main exhibition building and having some experience in collecting and arranging an exhibit for the District Fair at Carson, he knows what he has to do. He asks and expects the earnest and active cooperation of farmers, miners and the general public in collecting articles for the exhibit, which will be composed exclusively of the products of Nevada. He desires to get samples of the various ores found in the mines, as well as of salt, soda, sulphur, borax and other commercial minerals, as well as of the cereals, fruits, vegetables and grasses produced in the State. He hopes to excel in quality the grains and vegetables of the Mississippi Valley and furnish convincing proof that the arid lands of the Sagebrush State produce wheat, barley, potatoes, fruit and hay that cannot be equalled, much less excelled, in the great agricultural States of Illinois and Iowa, and to display a collection of ores and minerals that cannot be surpassed.

Mr. Yerington will endeavor to obtain liberal contributions from the men who became millionaires in Nevada to assist in making the exhibit respectable. Ex-Senator Fair, J. W. Mauley, Senator Jones, Congressman Newlands and others who can afford to do so should and doubtless will unhesitatingly contribute to the Commissioner.

A MAJORITY FOR FREE COINAGE

The Philadelphia Press, a gold-bug newspaper, says a secret canvass of the members of the next Congress has been made and reveals a large majority in both branches in favor of free coinage and a determination to put it through. All other questions are to be made subservient to the financial issue by President Cleveland, who only recently realized the strength of the silver sentiment in his party.

That the information of the Press is correct is a consummation devoutly to be wished. It is a majority of both Houses of Congress favor free coinage and is determined to pass a bill for that purpose there will be bitter times in Nevada in the near future, as it is not probable that the President would veto such a bill, whatever his opinion may be on the subject. Let the mints be opened for the coinage of silver as well as gold, as the founders of the Government intended they should be, and as they were up to 1873, and there will be no necessity for attaching Utah to Nevada, as the State would double its population and have its taxable property materially increased in a year.

AN APPEAL FROM SACRAMENTO

The following from citizens of Sacramento has been addressed to the Associated Press and the newspapers: "At a meeting of the citizens of Sacramento held at the Courthouse, it was unanimously resolved that, whereas the most outrageous and false statements have been sent abroad through the press, libelously assailing this city as to its health, its sanitation, its hospitality and the public spirit and moral atmosphere of the municipality and the conduct of its people, therefore, its citizens assembled in the perfect calm of cool deliberation, declare that such false and prejudiced expressions are as unworthy of the character of Californians as they are in seriously untrue; that we appeal to the manliness and fairness of our fellow citizens throughout the State to reject with the chivalrous indignation characteristic of them these malicious assaults; that we, the people of Sacramento, expect and ask from the press that fairness and generosity in giving this protest full publicity that it asks for itself."

The thirtieth session of the California Legislature passed in all 301 bills and 39 resolutions and Constitutional amendments. Of this number 108 bills and 6 Constitutional amendments and resolutions were sent to the executive office Wednesday. The Governor has already signed 149 bills and vetoed 8.

An exchange says that men who held office under Mr. Cleveland during his first term are now learning that they made a great mistake.

The Supreme Court has decided that imprisonment for debt is not unconstitutional in Massachusetts.

Matters of Interest From Home and Abroad.

AN UNFORTUNATE NEVADAN.

Senator Teller on Great Britain's Declaration.

A CABINET MEETING HELD.

Senator Teller on Great Britain's Declaration.

WASHINGTON, March 17.—Senator Teller, who has already given notice of his intention to take steps to cause the International Monetary Conference to reconvene at Brussels to-day, was asked for an opinion respecting the declaration of the Chancellor of the Exchequer yesterday that the British delegates would be instructed to oppose every bimetallic scheme presented at the conference. The Senator said that the declaration meant that Great Britain would absolutely oppose the free coinage of silver on terms of equality with gold. That is what she has always done and nobody expected her to do any more at this time. But there is nothing in this position irreconcilable with the attainment of the object of the conference, namely, the extended use of silver as a money metal. In fact, there was evidence to show that Great Britain really desired to do something in that direction. Her financiers realized the necessity for some palliative measure; something to prevent the further depreciation of silver, which, if continued, must result in the total destruction of the present monetary system. If that occurred the future of silver would be assured, but nobody wished to adopt such a heroic measure to achieve the desired result.

He had no doubt that England would be willing to support a reasonable proposition that was more practicable than the Biot-Bill scheme.

The Appointed Senators Discussed.

WASHINGTON, March 17.—The Committee on Privileges and Elections held a session this morning lasting about two hours and a half. The only cases discussed, and that, too, in an informal manner, were those of Maudslayi and Bismarck, appointed by the Governors of Montana and Wyoming respectively. The question before the committee was whether, it being the beginning of a full term, and the Legislatures having refused to elect, the certificates from the Governors were valid, and whether the Governor is authorized to appoint. The conditions in the case of Allen of Washington, whose credentials have not yet arrived, are somewhat different, but the result appears to be the same in all three cases, and it will probably be concluded from the same basis. The committee was divided on the question and the division was not down according to party lines. There will probably be a majority and minority report, and it is thought will be the case for a protracted debate with the end in view of finally establishing a precedent that shall be the law of the Senate. The committee will meet again Monday afternoon and the two Senators elect will be permitted to come before the committee and make such statements as they may see fit.

Deny the Story.

WASHINGTON, March 17.—A story has been published to the effect that President Cleveland has inaugurated a big fight against the Senate because of his displeasure on account of the manner in which the committee of that body were organized. The story is incorrect. Mr. Cleveland might have been better pleased if the Senate committee were organized differently, but he has not and does not intend to manifest any displeasure or disappointment as may feel. The attention of several Senators who have called at the White House has been called to the published story and they unanimously denied any knowledge of the alleged strained relations between the Senate and President.

An Unfortunate Nevadan.

BOWLING, Nev., March 17.—While traveling alone on horseback from Austin to Cortez, Nev., E. D. Walt, an old pioneer of Eureka county, was thrown from his horse in a lonely part of the mountains and evidently had laid on the frozen ground several hours before he was discovered. He was stunned and bleeding, and with one arm and one leg broken, exposed to the cold weather, and a pack of hungry coyotes ready to devour the defenseless cripple. He was removed to Cortez for treatment, but had to lie suffering two days before the physicians could reach his bedside.

Killed by a Deputy United States Marshal.

PORT TOWNSEND, Wash., March 17.—A special from Juneau, Alaska, says that Deputy United States Marshal Jack Dalton entered the store of Daniel McGinnis and struck him on the head with a revolver. While McGinnis was falling to the floor Dalton shot him three times, inflicting wounds from which McGinnis soon expired. Dalton claims that McGinnis had used remarks derogatory to his (Dalton's) character. Public feeling is strong against Dalton, who is now in custody.

Weather Forecast.

SAN FRANCISCO, March 17.—The forecast for Nevada is occasional rain or snow and slight changes in temperature.

Ferry's Death.

PARIS, March 17.—The news of Ferry's death astounded the city. None since Cambette's death has made such an impression. As hundred politicians called at the house this evening and inscribed their names in the visitors' book. The general feeling is that although Ferry's election to the Presidency of the Senate was contrary to the wishes of Carnot and Ribot, his death is a serious loss to the government.

As yet the names of his possible successor to the Presidency of the Senate has hardly been mentioned.

A Cabinet Meeting.

WASHINGTON, March 17.—The Cabinet was in session for about an hour and a half to-day. Several members stayed behind for some time longer discussing the affairs of their departments with the President. All the members were reminded to-day of the 60th anniversary of the birth of the Secretary of State and did not fail to congratulate Gresham. Secretary of War Lamont suggested that it would be the President's turn to-morrow to receive congratulations, as he will celebrate his 56th birthday.

Senator Hill to Visit Washington.

TACOMA, Wash., March 17.—Senator David Bennett Hill of New York is to visit Washington in the autumn and will address the annual meeting of the Democratic society of Washington to be held at New Westmont. This announcement was made last night by one of the most prominent Democrats in the State. According to his story the date is fixed as the invitation has been sent and Senator Hill has accepted it. This trip it is said will mark the beginning of Senator Hill's Presidential boom for the campaign of 1896.

Washington Notes.

WASHINGTON, March 17.—Messrs. Osalle and Thurston of the Hawaiian Commission and Paul Newman, attorney for Queen Liliuokalani, left Washington to-night. Mr. Castle is en route to his home, intending to sail from San Francisco for Honolulu on the 31st. The other will return to Washington and await the outcome of Queen's visit to the Hawaiian Islands.

Attorney General Olney to-day.

Appointed Frank Strong of Arkansas General Agent of the Department, vice F. C. Foster, resigned.

To Test Their Constitutionality.

TRENTON, N. J., March 17.—Chief Justice Beasley has granted writs removing to the Supreme Court the Acts recently passed providing for licensing race tracks in the State and permitting bookmaking and pool selling. The licenses granted under the Acts to Mount Pleasant Park, Guttenberg and Gloucester are suspended pending a decision as to the constitutionality of the laws. The applications for writs were made in behalf of the Citizens' League of New Jersey. The cases will probably be heard at the next term of the Supreme Court.

Both Are Better.

LONDON, March 17.—Lord Salisbury is in better health to-day. Mr. Gladstone was so much recovered to-day that he drove from his house to the Commons, where he was received with cheers.

Seeking Health.

PHOENIX, A. T., March 17.—Col. R. W. Thompson, Secretary of the Navy under President Hayes, arrived to-day with his family in the special car "Vandalia." He is here for his health.

Collector of the Port at San Francisco.

WASHINGTON, March 17.—It is stated on good authority that the President has selected John H. Wine as the Collector of the Port at San Francisco and that his nomination will go to the Senate next week.

Tobacco Users Smite Sometimes.

When told that tobacco hurts them; their wives never do, because that red nerve, weak eyes, chronic catarrh and lost manhood, tell the story. If your husband uses tobacco, you want him to quit, post yourself about No-to-bac, the wonderful, harmless, guaranteed tobacco habit cure, by sending for our little book titled: "Don't Tobacco Spit and Smoke Your Life Away." Free. THE SELLING REMEDY CO., Indiana Mineral Springs, Indiana.

Woman's Guild.

The Woman's Guild of Trinity Church will meet to-day, March 18th, at 2 p. m., with Mrs. Becker. A full attendance is requested. E. C. BARCOCK, Secretary.

Almost Goaded to Desperation.

It was during a very tedious ride on a southern railway, and the passengers, tired, dirty and thirsty, all berated the company, with the exception of one single passenger. His fellow passengers commented on this and asked him why he didn't denounce the company too. "It would be hardly fair," he replied, "as I am traveling on a free pass, but if I don't go out and buy a ticket and join you."—London Tit-Bits.

A Pure Norwegian

oil is the kind used in the production of Scott's Emulsion—Hypophosphites of Lime and Soda are added for their vital effect upon nerve and brain. No mystery surrounds this formula—the only mystery is how quickly it builds up flesh and brings back strength to the weak of all ages.

Scott's Emulsion

will check Consumption and is indispensable in all wasting diseases. Prepared by Scott & Bowne, N. Y. All druggists.

Misplacement of a Comm.

A popular captain's wife was more than usually anxious over the safety of her husband, and accordingly handed a parish clerk a slip one Sunday morning bearing the words, "Captain Wilson having gone to sea, his wife desires the prayers of this congregation on his behalf." Unfortunately, by the misplacement of the comma after the "sea," the congregation were told that "Captain Wilson having gone to see his wife, desires the prayers of this congregation on his behalf."—Cornhill Magazine.

Of Course Not.

The day was a warm one, and the gentleman from Kentucky was coming up from the spring at the foot of the hill with a bucket in his hand. "Ah, colonel," inquired an Ohio visitor sitting on the porch, "have you something to drink in that pail?" "Oh, no," responded the colonel, "it's water."—Detroit Free Press.

An Egyptian scythe dug up on the banks of the Nile in 1890 and said to be as old as Moses is exhibited in a London museum. The shaft of the instrument is of wood, set with a row of fine flint saws, which are securely cemented in a groove.

A New York business man says: "The keystone of the success of the business man is in making other men work for him. That is the greatest quality. It is no mean accomplishment to get men who will earn their salary."

Many animals never take exercise for their own sake. The muscular system of animals is kept in the most perfect condition, however, by their search for food. With them exercise is natural, and therefore perfect of its kind.

When a woman tires of a man she has once truly loved, there is reason to believe he has outraged her affection and wounded her inmost self esteem.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative, effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

All classes of legitimate advertisements not exceeding six lines, inserted in this column at 50 Cents per Week.

Tree! Tree!! Tree!!!

The undersigned will in a few days call upon the ladies and gentlemen of Reno and vicinity who desire to plant gardens, orchards or pleasure grounds, with a full list of all kinds of Fruit, Shade and Fancy Trees, Shrubs, etc. Also represent the largest, best and most responsible firms in America and the Canada, he hopes by courtesy and strict attention to business to merit a fair share of their patronage, feeling, as he does, that he can successfully compete with all competitors.

WM. STANFORTH.

To Invalids

Good remedies are kept at the Madame McCabe Corset Parlor. The place is within the reach of all Mother and daughters in the health should have light and become well. Second door north of McKiesley's Opera House, Sierra street mh18tf MRS. B. O. JUDD, Manager.

Paints at Lange & Schmitt's.  
Dr. Porter fills teeth without pain.  
F. C. Updike is seriously ill with pneumonia.  
President Cleveland is 56 years of age to-day.  
Dr. Richardson of Wadsworth spent yesterday in Reno.  
The Reno Reduction Works will start up about the 1st of April.  
Mrs. Wallace Coffin of Dayton arrived on last evening's V. & T.  
Crookery and glassware at San Francisco prices at Lange & Schmitt's.  
There were 4,000 dwls in France last year but not one resulted seriously.  
There are fifty-three Sundays in 1893—a thing that occurs about twice a century.  
Dr. Porter extracts teeth without pain. Office, Steele building, Commercial Row.  
Plumbing, tinning and pipe work done at the lowest possible prices by Lange & Schmitt.  
Fortify yourself against harmful changes of the weather by the use of Ayer's Sarsaparilla.  
There was a large turnout at the ball last night and as anticipated everyone had a jolly time.

The weather continues cool but farmers are busy, nevertheless, preparing the ground for crops.

Messin's Female Pills have been used by thousands of ladies and given satisfaction. Sold by McCullough.

There was a slight improvement in the weather yesterday but there is considerable margin to go on yet.

A carload of ore from the Humboldt Quech mine near Rye Patch arrived at the Reno Reduction Works yesterday.

Stephen Conner has trees, shrubs, etc., for sale by the million at the Reno and Mt. Hope nurseries. See advertisement.

If your hair is bare, dry, and wiry, you will find Ayer's Hair Vigor of essential service in rendering it soft, pliant, and glossy.

Secretary of State Graham was sixty years of age yesterday. Congratulations were extended him by all members of the Cabinet.

It is reported that several of the poor families on the Comstock are already suffering for the necessities of life. Blame it to the goldbugs.

To retain an abundant head of hair of a natural color to a good old age, the hygiene of the scalp must be observed. Apply Hall's Hair Renewer.

Miss Hedley French, a University student, departed for Carson yesterday morning, where she will spend her week's vacation with her parents.

Sealed proposals will be received at the President's until noon, Saturday, March 25, for painting the main University building. See advertisement.

There was a continual stream of visitors to Miss Gibbs' millinery store yesterday, and the lady had many pretty, novel and new things to show her guests.

T. K. Stewart returned from Washington yesterday. He says the opinion prevails at Washington that Utah will be annexed to Nevada. Both Senators favor it.

During the month of February there were 175 cars containing 3,384 cattle; 126 cars containing 11,511 sheep, and 1 car containing 18 horses shipped from Reno.

At Davenport, Wash., while enjoying herself snow-shoeing, the young daughter of Mr. Graham was instantly killed by a sharp stick she held striking the snow and passing through her body.

Considerable work is being done on the race track. Hon. Theo. Winter is spending \$500 of his own money in improvements. The track will be the finest on the coast when the work is completed.

The Silver State reports William Stock of Paradise Valley as having sold six carloads of fat beaver to San Francisco parties for 6 1/2 cents per pound. S. Peterson sold a lot of beaver in Reno this week at 6 1/2 cents per pound.

The wicked Silver State says: Cleveland has rescinded his manifesto that he would not recognize the claims of country editors in making appointments. What a weight of gloomy oppression is thus lifted from the shoulders of the Reno Gazette men.

Reno Mill and Lumber Company have a full line of Builders' hardware, paints, oils, glass and wall paper of the latest and newest designs; also a cheaper grade of paper, all at the lowest prices. Call and examine our stock, whether desiring to purchase or not.

C. A. Gibson, who was formerly connected in the grocery business here with G. W. Cunningham at the stand now occupied by J. N. Baker, died at Santa Barbara, Cal., on the 7th inst. He was an old and respected resident of this county for some years.

There were 418 cattle and 1,980 sheep shipped over the V. & T. from Mason valley during February, and 2,247 cattle, 1,472 sheep and 38 mules in transit from different points in Nevada fed and reshipped from Reno during the same period. This number would be greatly increased if the prices of beef in California increase.

Referring to the fact that the public schools of Reno were so crowded that another teacher had to be employed the Silver State says, "An usual new teacher is an imported one." In that the Silver State is mistaken. The new teacher, Miss McIntosh, is an old resident of Reno and taught school here a few years ago.

NEW LAWS.

Washoe County Road Fund.  
Approved March 6, 1893.

SECTION 1. The Board of County Commissioners of Washoe county, Nevada, are hereby authorized and empowered to issue bonds, in the name of the county of Washoe, not exceeding in amount the sum of \$15,000, exclusive of interest, for the purpose of paying the outstanding indebtedness of the General Road Fund of said county, and of improving the roads therein. The money obtained by the sale of said bonds shall be placed in the General Road Fund of said county.

Sec. 2. The Board of County Commissioners of said county shall cause said bonds to be prepared, and they shall be signed by the Chairman of the Board, and countersigned by the Clerk of the Board, and authenticated by the seal of the county. Coupons for the interest shall be attached to each bond, and coupons, consecutively numbered shall be signed by the Chairman of the Board of County Commissioners.

Sec. 3. The Clerk of the Board of County Commissioners shall keep a record of all their proceedings, and of all bonds that may be issued under the provisions of this Act, showing the number, date and amount of each, and to whom issued.

Sec. 4. The Board of County Commissioners of said county are hereby authorized to negotiate the sale of said bonds, either by advertising for sealed proposals for the purchase of the same, or otherwise, as they may deem proper, the proceeds of which shall be placed in the county treasury. The amount so realized shall be applied to the payment of the outstanding indebtedness of the General Road Fund of said Washoe county, and the improvement of the roads therein; provided, that none of said bonds shall be disposed of for less than their face value.

Sec. 5. The said bonds shall be issued in denominations of \$1,000 each, consecutively numbered, with interest thereon, not to exceed 5 per cent, per annum, payable annually, namely, on the third Monday in December of each year, at the office of the County Treasurer of Washoe county, and on the third Monday of December, in the year A. D. 1908, and every twelve months thereafter one of said bonds shall be paid and taken up.

Sec. 6. For the purpose of creating a fund for the payment of the bonds authorized by this Act, and the interest thereon, the Board of County Commissioners of Washoe county are hereby authorized and required to levy and collect annually a special tax, not to exceed 10 cents upon each \$100 of the assessed value of all property, real and personal, within the boundaries of said Washoe county, until such bonds, and the interest thereon, have been paid. Such tax shall be assessed and collected in the same manner and at the same time as other taxes are assessed and collected, and the proceeds thereof shall be kept by the County Treasurer in a special fund, to be applied to the payment of said bonds and the interest thereon.

Sec. 7. Whenever the bonds and interest provided for in this Act shall have been fully paid, the tax authorized by this Act shall cease, and all moneys remaining in said fund shall, by order of said Board of County Commissioners, be transferred to the General Fund of said county.

Sec. 8. Whenever the County Treasurer shall pay any coupons or bonds under provisions of this Act, he shall cancel the same in the usual manner, and turn the same over to the County Auditor, who shall give him credit therefor.

THE WORLD'S FAIR.

The Commissioners Meet and Organize.  
The Nevada Legislature appropriated \$10,000 for an exhibit at the World's Fair, under the provisions of the Act the Governor appointed James A. Yerington Commissioner.

The Commissioners appointed by the President; namely, J. W. Haines and Geo. Russell, and E. Strother and B. Ryland, alternates, and Lady Commissioners Mrs. M. D. Foley and Miss Lida Russell, with alternates Miss Torreyson and Miss Davies met at Carson and elected Commissioner Yerington Chairman of the Board, and he has issued the following:

OFFICE OF NEVADA STATE BOARD OF WORLD'S FAIR COMMISSIONERS,  
CARSON, Nev., March 14, 1893.

The sixteenth session of the Nevada Legislature made an appropriation of \$10,000 for the purpose of making an exhibit of the resources of the State at the Columbian World's Fair, to be held in Chicago, 1893. The Governor appointed a commission of three to represent Nevada's interests. At a meeting held in Carson by them this day it was resolved to make an appeal to the citizens of Nevada to the end that they will use every effort to assist the Commissioners in making a most creditable showing. The time being limited, it will be necessary for immediate action, as exhibits will have to reach Chicago by April 20th.

As many sections of the State will be visited by a Commissioner as the limited time allotted will permit.  
Exhibits from Storey, Ormsby, Washoe, Douglas, Churchill, Lyon and Esmeralda counties can be forwarded to Reno, Nev. Exhibits from Lander, Nye and Humboldt to Winnemucca; and exhibits from White Pine, Elko and Eureka, to Elko, and exhibits from Lincoln county may be sent to Ogden.

JAMES A. YERINGTON,  
Chairman of World's Fair Commissioners.

Chairman Yerington will visit the several counties which can be reached by rail for the purpose of making collections of ores, minerals and agricultural products, and the public spirited citizens of the several counties should assist him in every possible way.

Stationery, cutlery, notions, also gentlemen's underwear and hats at A. Nelson's on Virginia street. Call and examine before purchasing elsewhere.

Kamys—The finest remedy for indigestion, and a pleasant beverage, can be obtained in pint syphon bottles at McCullough's Drug Store.

WEATHER FORECAST.

A Storm of More than Average Force Predicted.  
Copyrighted 1893 by W. T. Foster.

St. JOSEPH, Mo., March 17, 1893.  
My last bulletin gave forecasts of the storm wave to cross the continent from March 15th to the 22d. The next will reach the Pacific coast about the 23d, cross the western mountains by the close of the 24th, the great central valleys from the 25th to 27th, and the eastern states about the 28th. This storm will be of more than average force.

The cool wave will cross the western mountains about the 26th, the great central valleys about the 28th and the eastern states about the 30th.  
The first part of April will be cool, the eastern states will have very rough weather the first few days of the month and the whole country will experience very stormy weather after the 10th. Excessive rains in places and local draughts in other parts. The month will be characterized for its extremes of weather.

LET THERE BE LIGHT.  
Back of the Aztec period we know nothing, from geological evidences, about the formation of the earth. Above the Aztec is a perpetual round of changes. The Silurian and Devonian ages are noted for their deposits of lime and the ages following for deposits of carbon. The first division follows the condition that would result from the evolution of the earth from its cometic period to its planetary period and the second from the effects of our moon comet coming in contact with the earth.

From the stand-point of reasoning our earth-comet's envelope consisted principally of carbon. In examining the spectra of comets and the remains of aerolites that fall on the earth, we find it not uncommon for certain minerals to predominate in one while other minerals predominate in another. The varied colors of the planets can be accounted for on no other theory.

Taking the two grand divisions of the earth's so-called crust, we find that beginning at the aztec rocks for one and at the lower carboniferous for the other, the strata are deposited just as the laws of nature require, supposing that the minerals and metals were held suspended, in each case, above the earth by the action of heat or electricity.

HISTORY OF MAN.  
Now let us leave the geologic record for a time and go to the history of man. Powerful evidences exist going to prove that long before the time of Moses an age of superior intelligence existed and a civilization far superior to any known to have existed since. The Nile country was surely the center of that civilization and because of its geographic location being such that cataclysms might have destroyed all traces of other old civilizations have left the Nile country unharmed, therefore the records, legendary and otherwise, of Egypt have been better preserved than those of other countries.

I want to introduce the book of Genesis in this argument as I did that of Job when I was discussing comets. Bigotry and superstition are so prevalent in the world that many want to deny me the right to use Job and Genesis in a scientific discussion. But that superstitious idea that these two books are too sacred to be mentioned in the newspapers of to-day is rapidly breaking and soon no trace of it will remain.

Moses obtained his knowledge of past events from what, in his day, was very ancient histories and these histories he found in the records of Egypt and possibly Babylon. His ancestral race having formerly lived in that country of which Babylon was the capital.

KNOWN IN MOSES' TIME.  
In reference to the book of Genesis the wonder of this age is that in the time of Moses the geologic structure of the earth's crust was known. That book in recording the progress of creation lays down precisely the periods as we find them recorded in the rocks of the earth. "And the earth was without form and in confusion," says Moses. We might truthfully repeat the same sentence in reference to the great comet of 1811. This comet returns to our sun in about 3,000 years, its head including the envelope, was about 112,000 miles in diameter and its tail when near the sun was 112,000,000 in length. When the envelope and tail of that comet condensed and fell to the solid body it will probably form a much larger planet than our earth. Who will dare say that our earth did not go through the same evolution we now see in progress in the great comets?

Moses again says: "God made the firmament and divided the waters which were under the firmament from those that were above the firmament." The word firmament as here used means the region of the air, the sky, the heavens. The old records from which Moses gained his information recognized that there were two bodies of water, one above and one on the earth. That above consisted of the cloud belts, such as we now see on all the planets except Mars and the earth, and while these cloud belts shut out the lights, sun, moon and stars spoken of in the third period of creation, as chronicled by Moses, they did not shut out the diffused, dim light he mentions in the first period. The fact that a large portion of the water was then suspended above the earth accords with the geologic record and the evolution of planetary worlds and in order that man might then live on the earth that suspension of the waters must have been ceased by our moon then being very near the earth and not by internal heat of the earth as geologists suppose.

Our linguists say that the word which is translated "in the beginning," is from the root "to be moved, to be shaken," and that therefore the upper deep is described as being in motion, revolving around the earth, as Jupiter's belts revolve around his body.

THE DEEP AND THE DEEP.  
The waters on the earth were called seas and those above the earth the deep. Moses says: "and darkness was upon the

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

# Royal Baking Powder

ABSOLUTELY PURE

face of the deep." Not the lower deep, the seas as we might now suppose was meant, but the upper deep, the cloud belts and rings then surrounding the earth and shutting out the light of the sun.

It was believed that God dwelt in the sky or had his throne established upon the upper side of a solid floor called heaven and therefore the text says: "The spirit of God moved upon the face of the waters." This does not mean that the spirit or law moved on the seas or oceans but upon the upper deep, the cloud belts. How did this spirit or law move upon this upper deep?

Millions of years had elapsed since our moon-comet's close proximity to the earth had raised these cloud belts from the earth and mingled its own waters and minerals, principally carbon, with those of the earth's envelope and as the moon receded from the earth as it is still receding, the heavier materials, the metals and minerals, especially the carbon, of which comets are principally composed, condensed, fell to the earth, and permitted the light of the sun to dimly penetrate to the earth. When that had been accomplished by the natural workings of universal law the momentous command "let there be light" appears in the Mosiac record.

Verdict for Defendant.  
The case of Antonio Braxano vs. Grove R. Holcom has had the attention of Judge Cheney and a jury the past three days. The case was submitted to the jury yesterday without argument by counsel, and after being out but a few minutes the jury returned a verdict for defendant.

On the 16th of last October while Mr. Braxano, his wife and two-year-old son were going from their residence to visit a friend in the neighborhood of Huffaker's, and while crossing the premises of the defendant the wagon ran into a dry ditch, throwing them all from the seat to the ground. The child was instantly killed by the fall, while Mrs. Braxano's hand was fearfully lacerated and her husband suffered a sprained ankle and several bruises.

The suit completed yesterday was for \$10,000 damages, claimed by the plaintiff for the death of the child. Baker, Wines & Dorsey were attorneys for plaintiff, while Clarke and Jones looked to the interests of defendant.

Old Rates of Postage.  
An old almanac for 1814 gives the following as the rates of postage prevailing at that time: "For every single letter by land, for 40 miles, 8 cents; 80 miles, 10 cents; 160 miles, 12 1/2 cents; 300 miles, 17 cents; 500 miles, 25 cents, and for more than 500 miles, 35 cents. No allowance to be made for intermediate miles. Every double letter is to pay double the said rates; every triple letter triple; every packet weighing one ounce at the rate of four single letters each ounce. Every ship letter originally received at an office for delivery, 6 cents. Magazines and pamphlets, not over 50 miles, 1 cent per sheet; over 50 miles and not exceeding 100 miles, 1 1/2 cents per sheet; over 100 miles, 2 cents per sheet."

Now Broken.  
O. M. Barry, a Wells, Fargo & Co. messenger on the N. O. C., met with a serious accident last Wednesday. The train does not stop at Taylor's Camp and the mail sack is placed on a mail catcher and is caught up by the messenger while the train is in motion. On the day mentioned Mr. Barry, just before arriving at the station, struck his head out of the door, his attention being attracted by something at the side of the track, and he did not notice the train's close approach to the station. The side of his face and nose was struck by the mail catcher, and an investigation showed that the nasal organ had been broken by the blow.

A New Structure.  
Messrs. Clough and Crosby have a crew of men at work excavating for a cellar on their lot, corner of Second and Center streets, and as soon as the work on the cellar is completed work will be commenced for a two-story brick building with iron front. The building is to be 58 1/2 feet and on the lower floor there will be space for four stores and the second story will be fitted up for a dance hall. The basement will be quite large and suitable for a saloon or the like. When completed the building will cost about \$10,000, and Messrs. Clough and Crosby expect to have it ready for occupancy by the latter part of July next.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became a Woman, she clung to Castoria. When she had Children, she gave them Castoria.

A ROOM AT TRUCKEE.

The Donner and Tahoe Railroad to be Built.

Engineer Cronan of the C. P. R. R. brought the Journal a copy of the Truckee Republican of yesterday, a page of which is devoted to the Donner & Tahoe railroad. It says it is the best news that ever reached through the town of Truckee. Articles have been signed, the terms of which require the immediate construction of the Donner & Tahoe railroad, and contracts for grading, getting out ties and building the road will be let in a few days. The vast wood business which the road will develop and build up will be one of the chief industries of Truckee, as over one hundred million feet of saw logs will be hauled over the line.

The Republican is enthusiastic over the prospects and closes as follows: "Real estate will advance 50 per cent before sundown to-night but it will never recede. The day of jubilee has come for Truckee. All that has been predicted by the hopeful ones will now be realized. Truckee's 'future' has come like a flash; like a change of capital in the California Legislature. Hurrah for Truckee!"

Normal Training School Report.  
Following is the roll of honor for the Normal Training School from the 1st of February to the 15th of March:

Preparatory Class—Lucy Grimes, 99; John Bristol, 99; Rollin Magill, 98; Will Luke, 95; I. Newton Evans, 95. Eighth and ninth grades—Sadie Phillips, 98; John Fulton, 97; Phillip Emery, 97; Edna Robinson, 97; Irvine Ross, 95; James Taylor, 95.

Fifth grade—Herbert Jones, 99; Ben A. Evans, 98; Essie Webster, 95.

Fourth grade—Joe Fontaine, 97; Ada Phillips, 98; Bessie Evans, 96; Henry Byers, 95; Aldina Toler, 95.

Third grade—Augustine Jones, 97; Frank Luke, 96; Carl Bray, 95.

Second grade—Edred R. H. 97. MARY W. EMER, Principal, ESTELLA B. EDW, Asst-tant.

BUSINESS, LOCAL AND NEWS ITEMS.  
Fine eastern hams and Bacon at W. S. Bailey's.

Hot punch at Keith's every day, ten cents with beer.

For fine boots and shoes go to H. F. Favole.

A full line of Ferry & Co.'s seeds at W. Pinniger's drug store.

Anything desired in the smokers line can be had at Marcus Fredrick's.

Go to the Palace Bakery for fresh whole-some bread, cakes, pies and candies.

McCullough has the largest stock of D. M. Ferry & Co.'s seeds ever brought to Reno.

For rough or chapped skin use Myrtle Balm, 25 cents. Pinniger's, Virginia street.

After shaving or exposure to cold use Myrtle Balm, 25 cents. Pinniger's, Virginia street.

Take your prescriptions to Pinniger's pharmacy, Virginia street. Pure drugs at lowest prices.

A fine stock of ladies' and gents' chest protectors at lowest prices. Pinniger's, Virginia street.

Lovers of a good cigar go to the Mon arch and get one of Herman Hyman's Cuban Blossoms.

Buy your garden and flower seeds from W. Pinniger, who has the largest variety in town.

Alfalfa, timothy, red top, blue grass, meadow red and white clover seed at McCullough's Drug Store.

Jack Godfrey serves a first-class meal and fresh oysters in every style at the Palace Restaurant. Meals at all hours.

The Palace Hotel, which is well and favorably known to every old Nevada, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor purse to provide for the comfort and convenience of guests.

For Over Fifty Years
